

ADLInspect

Features & Benefits

Legal Forms You Can Trust

Benefits

- ✓ **Affordable** With one low yearly fee you gain access to the ADLInspect service. (see '**What We Supply**' below for more information)
- ✓ **Never Run Out of Forms** During your subscription period you can produce & print unlimited inspection reports (Entry, Exit & Routine).
- ✓ **Always Have the Latest Forms** With an internet connection ADLInspect can automatically check for updates on a daily basis to ensure your inspection reports are always up-to-date with current legislation and form enhancements.
- ✓ **Reduce Costly Errors** ADLInspect can help minimise errors by eliminating double handling in the reporting process.
- ✓ **Save Time** ADLInspect was purpose built to minimise the time taken to complete inspection reports.
- ✓ **Simple to Use** ADLInspect is intuitive and simple to follow and no training is required.
- ✓ **Peace of Mind** All ADL inspection reports are legally compliant and enforceable documents prepared by our qualified staff in consultation with our legal and professional advisors to ensure compliance with all relevant legislative requirements.

What We Supply

- ✓ **Unlimited Forms Printing** For one low yearly fee we provide for your office unlimited forms printing for the packages you are subscribed to (we don't charge impression or 'per form' printing costs).
- ✓ **Install on Unlimited Mobile Devices & Computers** You may install ADLInspect on unlimited mobile devices for your office and the ADLInspect file transfer software on all computers for your office.
- ✓ **Unlimited Updates** For your yearly fee you are entitled to unlimited software and forms updates for the subscription period.
- ✓ **Unlimited Support** For your yearly fee you are entitled to unlimited telephone & email support during normal business hours (Australian Eastern Standard Time).

Key Features

- ✓ **Start New Reports with Previous Comments** Because up to 90% of the comments from your previous inspection of a property will still apply for the current inspection, we allow you to start new reports with the comments from the previous inspection.
- ✓ **Inspection Photos Automatically Organised for You** ADLInspect enables you to add photos to your inspection reports while onsite. Once a photo is taken ADLInspect will manage the photo for you, even after the inspection report has been transferred back to your PC.
- ✓ **Continue to Edit Reports After Transfer to Your PC** All reports can be edited after loading them back onto your PC (or server), as the file is an ADLForms inspection report (*Note: this feature is included in your license for ADLInspect*).
- ✓ **Expandable Inspection Reports** Entry, Exit & Routine Inspection Reports will allow up to 3,000 characters for each item comment. To enable this feature ADLInspect/ADLForms automatically expands the report when printing so that all comments are printed in full.
- ✓ **Save Completed Reports Where You Choose** You can save your completed inspection reports to any location (eg. the property folder the inspection relates to), including your network server for easy backup and retrieval.
- ✓ **Automatic Insertion of Company Details** Your company details, as per your ADLInspect registration, will be automatically inserted into appropriate fields on all inspection reports you create.
